"...When it comes to the Palestine question, this US administration persists with its disrespect for international law and the resolutions and authority of the UN Security Council and absolute disregard for the rights of the Palestinian people. Following the provocative declaration made by the US Secretary of State in November 2019 that the Israeli settlements established in the Occupied Palestinian Territory are "not per se inconsistent with international law", and following the issuance by the US President of his so-called "Vision for Peace", which, inter alia, attempts to legitimize Israel's theft and colonization of the Palestinian land, the US and Israel yesterday signed agreements extending further US recognition and support to the illegal Israeli settlement regime and ongoing annexation attempts..."

Dr. Hanan Ashrawi: Murder of Amer Snoubar is a monstrous act of brutality motivated by hate and encouraged by impunity

The vicious murder of 18-year-old Amer Snoubar at the hands of Israeli occupation forces is a monstrous act of brutality against a defenseless young man whose only crime was being Palestinian. Israeli occupation soldiers bludgeoned Amer this dawn and medical authorities have confirmed that he was beaten repeatedly on the back of the neck then left for dead.

Such crimes are perpetrated and perpetuated by Israeli occupation soldiers because they are part of a regime that awards criminality and ensures impunity for crimes, domestically and internationally. The daily structural violence against Palestinians, which is the lifeline of this illegal occupation, entrenches a culture of racism, hate, and dehumanization against the Palestinian people, allowing for such crimes to happen without shame, fear, regret, or accountability.

This hostile and hateful environment also allows for other forms of inhumane disregard for Palestinian lives, as demonstrated in the continued imprisonment of Maher al-Akhras, who is now on day 91 of his hunger strike to protest his detention without charge or trial under so-called "administrative detention." This cruelty is what drives Israeli occupation authorities to prevent Maher's elderly mother, wife and children from seeing him while he battles to stay alive. It explains the steep rise in demolition of Palestinian homes in the middle of a raging pandemic and provides context for Israel's targeting of schools, medical facilities, and other basic services.

The only way for these crimes to end is for the illegal Israeli regime of occupation to end. International concern and outrage will not save Palestinian lives or property. They will not protect Palestinian rights or dignity. The only responsible and moral response to these senseless crimes is accountability.

PRESS RELEASE: UN expert calls for Israel to end practice of administrative detention and immediately release Maher Al-Akhras

GENEVA (23 October 2020) – Israel should release a Palestinian detainee who has been on hunger strike for close to 90 days and end its practice of administrative detention, under which people can be held indefinitely without trial, sometimes for years.

Maher Al-Akhras began a hunger strike in late July after he was arrested. Israeli security forces accuse him of being a member of Islamic Jihad, a charge he denies. The Israeli Supreme Court has rejected his petitions for release three times.

"Mr. Al-Akhras is now in very frail condition, having gone without food for 89 days," said Michael Lynk, special rapporteur for the situation of human rights in the Palestinian Territory occupied since 1967. (read entire press release below)

"...Just this week, on 14 and 15 October, the Israeli government approved the construction of another 5,000 settlement units in the Occupied Palestinian Territory, including East Jerusalem, primarily in areas deep inside the West Bank. Such duplicity cannot be ignored as Israel persists with its violations and further undermines the two-State solution on the pre-1967 lines, paving way for an apartheid one-State reality, while it simultaneously disguises itself as a regional partner who believes in advancing peace and stability, attempting to promote its standing in the international community based on false credentials..."

BREAKING NEWS

2020 Election should not be about whether you like a particular candidate or not. It should be about the party's views that will change America either more socialistic (communitic) or Patriotic (Putting America first).

Democrats believe in the following:

- Killing babies even after birth.
- Defunding police (anarchy)
- Gun Control (Taking guns away from even those that are responsible)
- Open Borders (Even during a pandemic)
- Illegal Immigration (Destroying the autonomy of America)
- Higher taxes (Both on rich and middle class)
- Weak Military (Making America weak)
- Over- regulations (Placing heavy burdens on small business and individuals)
- Let anyone vote
- Welfare state (Keeping Americans in bondage to the government)
- Lockdown State (Ruining the great American Economy)
- Big Government (Take away individual freedoms)
- Against term limits (Keeping the swamp like it is)
- Socialism (Taking away American freedom)
- Communism
- Political Correctness

Republicans and majority of Independents and the silent majority believe:

- Letting babies live (Not allowing the savage ways abortion is being done)
- Supporting police
- Gun Rights for those responsible.
- Border Control (Not allowing murderers and Drug cartels into America)
- Legal Immigration (Making citizenship a privilege, not an entitlement)
- Tax Breaks (Letting Americans handle how there money is spent)
- Strong Military (Equals Strong America)
- Small Business (The anchor of the economy)
- Voter ID (Stopping fraudulent votes on both sides of the political scene)
- Working class (The foundation of America)
- Working economy (Making America Great and Keeping it Great)
- Small Government (Equals more freedom)
- Favor term limits (Draining the swamp)

"Israel must immediately allow entry of fuel and other essential items into Gaza; Hamas must end actions risking further destabilization"

Statement by Humanitarian Coordinator, Mr. Jamie McGoldrick

"The deterioration witnessed in recent weeks in the Gaza Strip is of grave concern. In the context of an escalation of hostilities with Palestinian armed groups launching projectiles into Israel, Israel has limited the transfer of certain goods into the blockaded coastal enclave, reduced the permissible fishing area and prevented fuel deliveries, including the UN-facilitated fuel for Gaza's sole Power Plant. As a result, the Gaza Power Plant ceased operations on 18 August, sharply reducing electricity provision to nearly 2 million Palestinians..."

"...We are thus compelled to reiterate: Israel's "suspension" of plans to annex parts of the West Bank should neither be cause for relief, nor applause, by the international community. It is perverse to reward "not committing the crime of annexation", when respect for the law is obligatory upon all and, when in reality, the crime is being committed as we speak. This is reflected not only in the occupying Power's ongoing rhetoric and declarations of intent, most vocally by the Israeli Prime Minister, but by the occupying Power's actions on the ground, which indicate no sign of halting and reversing the seizure and colonization of Palestinian land, as repeatedly demanded by the international community, including the Security Council, most recently in its resolution 2334 (2016), and as obligated by international law..."

"...As witnessed in recent days, the Israeli Prime Minister continues to push for and threaten annexation, insisting that "it's [annexation] not off the table, the option still exists" and that the Israeli government is carrying on with its discussions with the United States to implement this illegal plan. Confiscation of Palestinian property, demolition of Palestinian homes, and other military orders and measures continue to be carried out by the occupying forces in preparation for annexation. This includes recent military orders for the demolition of homes, structures and water wells of a Palestinian village in north of West Bank, Farasin, west of Jenin, which, if carried out, would result in the dispossession and displacement of 200 people. Moreover, Israeli settler leaders and gangs continue their provocative demands for annexation and incitement against the Palestinian people, terrorizing them in their homes, places of worship, and all over their land..."

the important vision presented by the Secretary-General in his statement on this occasion, Mandela devoted his life to fighting inequality and injustice, regardless of its sources, and in solidarity with all its victims.

This included solidarity with the Palestinian people, with Mandela stressing "We know too well our freedom is incomplete without the freedom of the Palestinians". There is a reason why those who have fought against colonialism and Apartheid remain the strongest advocates of the Palestinian cause. They recognize the similarity of our chains, but also our common aspiration to freedom, and we are proud to have them by our side in our ongoing just struggle..."

Permanent Observer Mission of the State of Palestine to the United Nations

July 13 · 🌐

On 9 July 2020, the Palestinian Mission to the Kingdom of the Netherlands hosted a webinar to mark the 16th anniversary of the International Court of Justice's Advisory Opinion on the Legal Consequences of the Construction of the Wall in the Occupied Palestinian Territory. We were joined by distinguished panelist H.E. Minister Riyad Mansour, the Palestinian Ambassador to the United Nations, renowned for his extensive political and legal expertise.

H.E. Rawan Sulaiman, kickstarted the event by welcoming our esteemed speakers and attendees from the diplomatic corps and civil society.

Following that H.E. Minister Riyad Mansour, made an intervention where he firstly talked about how the critical juncture that the Palestinian struggle is going in the shadow of the Israeli occupying power's looming annexation. He provided context as to how the lack of accountability, including 3rd state responsibility, has exacerbated the situation on the ground and emboldened Israel, the occupying power, to commit further crimes including declaring its intention to annex 30% of the occupied West Bank. He noted that the question of Palestine deserves a just solution that is based on international law. Thus, despite the difficult times that we are going through and the continuous violations of international law that are committed against our people the Palestinian leadership will not relent until we end occupation and end Israel's impunity. Following that he alluded to the historic ICJ's advisory opinion on the Legal Consequences of the Construction of the Wall in the Occupied Palestinian Territory and stated that the conclusions of the ICJ indicated that the construction of the wall is illegal and tantamount to annexation. Moreover, the court asked the Security Council and the General Assembly and the High Contracting parties of the Fourth Geneva Convention along with Third state parties to take practical steps and measures to end Israel's violations.

According to him, the international community and 3rd states failed to uphold their responsibility under international law by taking practical measures, thus over the years, Israel continued to ignore the Advisory Opinion of the court, UNSC resolutions and international law. He expounded on that by noting that during the last 12 years more than 700 resolutions were adopted by the UNSC whereby a great majority related to the Middle East, about half of the resolutions were adopted under chapter 7 where measures such as economic sanctions were enforced. Withing that period of time only two resolutions were adopted on Palestine UNSC 1860 and UNSC 2334. Both resolutions were not adopted under chapter 7.

enforced. With that period of time only two resolutions were adopted on Palestine UNSC 1860 and UNSC 2334. Both resolutions were not adopted under chapter 7.

Subsequently, Minister Mansour shed light on the current Palestinian efforts adopted by the leadership in confronting the annexation plan; which entailed mobilizing a large number of states, forces, institutions, and international legal structures in order to defend international law and the international legitimacy and isolate Israel, the occupying power, and the US administration from imposing their will against the international community and the global consensus vis-à-vis the Palestine question. He talked about the Palestinian efforts in garnering an overwhelming support from all members of the Security Council except for one, the General Assembly, the League of Arab States, the Organization of Islamic Cooperation, the Non-Aligned Movement and the African Union. According to him, the Palestinian leadership was able to build a massive front in opposing the unilateral plan of annexation. The Palestinian efforts culminated in a special session for the security council meeting that was held on the 24th of June which materialized in reiterating the international community's opposition of the illegal annexation and urged Israel not to go ahead with its plan. Moreover, Minister Mansour emphasized the importance of Palestinian unity and putting our internal house in order.

H.E. Mansour concluded his presentation by affirming that the Palestinian leadership's will utilize all the political, diplomatic and legal means within the international system in order to confront the Israeli occupying power's annexation plans. He hoped that the ICC will begin the process of the official investigation pertaining to the war crimes that have been committed by Israel, the occupying power, against the Palestinian people noting that Israel should not be allowed to carry on with its violations of international law. He also called on states to uphold their state responsibility under international law by taking practical steps and measures and exacting a cost on Israel's illegal occupation and violations of international law. He ended by stating that the Palestinian leadership will continue in its struggle to end the illegal occupation and establish an independent Palestinian state.

His intervention was followed by a Q&A. The webinar was moderated by Edwin van 't Pad, Policy Advisor.

Permanent Observer Mission of the State of Palestine to the United Nations

July 1 · 🌐

(1 July 2020)

"Israel's extremist government decided today to keep everyone in the dark about if and how it will make use of the "golden opportunity" offered by the Trump administration to embark on de jure annexation of large swathes of the occupied Palestinian West Bank. No one should be misled, however, Israel will continue to quietly de facto annex occupied Palestinian territory, as it has done for decades, while trying to appease its Western allies. But as the UN High Commissioner for Human Rights, Michelle Bachelet, said, "Annexation is illegal. Period. Any annexation."

"The timing of this Negotiation Affairs Department (NAD) publication coincides with the impending annexation announced by the recently formed Government of Israel. We have embarked on this publication not because of the novelty of illegal Israeli annexation of Palestinian land, but because of the urgency - now more than ever - of raising our voices against Israeli annexation that jeopardizes the viability of the State of Palestine and the right to self-determination, and entrenches occupation with its violations of Palestinian human rights.

The intertwine in politics, annexation, the daily life of Palestinians, and the future of the Palestinian state, is presented in the three parts of this publication with one unified and clear message by all contributing authors: "Annexation is illegal; it ends the two state solution, legalizes apartheid, and has to be stopped".

aggravate and tensions and emotions continue to be inflamed by the illegal crimes being perpetrated by Israel, the occupying Power, against the Palestinian people. This volatile situation has only intensified as Israel moves to annex parts of the West Bank, in blatant contempt of international law and the countless appeals and warnings from governments, parliamentarians, human rights and civil society organizations, legal scholars and leaders of conscience worldwide. Forging ahead with illegal measures to "prepare the ground" for formal annexation, Israel continues its settlement activities, destruction of Palestinian homes and properties and forcible displacement of Palestinian civilians in areas it has marked for annexation, directly affecting at least 200 Palestinian communities. The institutionalized violence, terror and racism by the occupying forces and extremist settlers against the entire

(24 June 2020)

"...Israel needs to know that annexation will have immediate and tangible repercussions. That is why we have called on the international community to adopt effective measures, including sanctions, to deter annexation and all other unlawful policies that have prepared the ground for it. It must also be made clear that annexation will irreversibly impact Israel's relations with Palestine and the region. The Oslo accords were supposed to transform us into peace partners, but regrettably Israel continued waging a war against Palestinian lives and rights. It has violated the spirit and letter of the agreements, and with annexation, is taking a decision that will defeat their very purpose. These accords were supposed to pave the way for an end of occupation and a final peace agreement. They cannot survive annexation..."

(June 23, 2020): "We strongly condemn the cold-blooded murder of 28-year-old Ahmed Erekat by Israeli occupation forces at a military checkpoint near Bethlehem.

Ahmed was on his way to pick up his mother and sister who were preparing for his sister's wedding later that day. On that fateful trip, he was executed by Israeli occupation forces and denied medical help.

Israel also attempted to slander Ahmad and excuse his murder. It is part of a tragically familiar pattern, where Israel habitually uses false pretenses that are all too familiar now to justify the murder of Palestinians by trigger happy soldiers. This is what Israel did when it shot and killed Iyad Hallaq, an autistic man shot dead by Israeli soldiers in Jerusalem on 30 May, and Fadi Samara, father of 5, who was killed in cold blood on 29 May near Ramallah.

Israel continues its policy of shoot first and ask questions later, with full impunity and in the absence of accountability from a dysfunctional international community. This shooting is symptomatic of a brutal and racist system of structural violence that treats Palestinian lives and rights with abject disdain, considering the lives of our young men and

(23 June 2020) During an extra-ordinary global meeting on UNRWA at ministerial level hosted today by the governments of Sweden and Jordan, 75 governments and non-governmental organisations made \$130 million in financial commitments to sustain the operations and services of the United Nations Relief and Works Agency for Palestine refugees in the Near East (UNRWA). UNRWA is the UN agency responsible for providing protection, health care, education, relief and social services, emergency response and other lifesaving services to more than 5.6 million Palestine refugees across the Middle East. The needs of these refugees are rising as a consequence of the outbreak and long-term implications of the COVID-19 pandemic, the economic downturn in host countries, and the political instability on top of the continued occupation of Palestinian Territory, the blockade on Gaza, and the conflict in Syria.

The State of [#Palestine](#) joins [66](#) other countries to reconfirm its unwavering support to @IntlCrimCourt as an independent and impartial judicial institution, undeterred by any threats or measures against the [#ICC](#), its officials and those cooperating with it.

[#JusticeMatters](#) [United Nations](#)

The States mentioned hereafter have endorsed this statement in support of the International Criminal Court (ICC) following the release of the US Executive Order of 11 June 2020:

Andorra, Argentina, Australia, Austria, Bangladesh, Belgium, Belize, Bolivia, Brazil, Bulgaria, Burkina Faso, Canada, Chile, Colombia, Costa Rica, Côte d'Ivoire, Croatia, Cyprus, Czech Republic, Democratic Republic of the Congo, Denmark, Dominican Republic, Ecuador, Estonia, Fiji, Finland, France, Gambia, Germany, Greece, Guyana, Iceland, Ireland, Italy, Latvia, Lesotho, Liechtenstein, Lithuania, Luxembourg, Madagascar, Malta, Mexico, Namibia, Netherlands, New Zealand, Nigeria, Norway, Peru, Portugal, Romania, Saint Vincent and the Grenadines, San Marino, Senegal, Sierra Leone, Slovakia, Slovenia, South Africa, Spain, State of Palestine, Sweden, Switzerland, Trinidad and Tobago, Tunisia, Uganda, United Kingdom, Uruguay and Venezuela.

As States Parties to the Rome Statute of the International Criminal Court (ICC), we reconfirm our unwavering support for the Court as an independent and impartial judicial institution. In line with the 11 June press release of the President of the Assembly of States Parties, we reiterate our commitment to uphold and defend the principles and values enshrined in the Rome Statute and to preserve its integrity undeterred by any measures or threats against the Court, its officials and those cooperating with it.

We remain committed to an international rules-based order. The ICC is an integral part of this order and a central institution in the fight against impunity and the pursuit of justice, which are essential components of sustainable peace, security and reconciliation. We will therefore continue to respect our cooperation obligations under the Rome Statute and we call on all States to ensure full cooperation with the Court for it to carry out its important mandate of ensuring justice for the victims of the most serious crimes of international concern.

We recall that the ICC is a court of last resort, which anchors a system of justice for serious international crimes rooted in national courts. National authorities have the primary responsibility to investigate and prosecute Rome Statute crimes. The ICC only steps in when States are unwilling or unable to genuinely carry out national proceedings.

The ICC, as the world's first and only permanent international criminal court, is an essential component of the multilateral architecture upholding the rule-of-law. It embodies our collective commitment to fight impunity for international crimes. By giving our full support to the ICC and promoting its universal reach, we defend the progress we have made together towards an international rules-based order, of which international justice is an indispensable pillar.

Permanent Observer Mission of the State of Palestine to the United Nations

June 23 ·

The State of #Palestine proudly supports the appeal by the United Nations Secretary-General Antonio Guterres for a "Global Ceasefire Amid the #COVID19 Pandemic" by signing onto a statement of support alongside 170 Member States & Observers at the United Nations. #UNSG

Initiative launched by
Singapore, Jordan, Egypt, Indonesia, Japan, Palestine, Oman, Nepal, Nicaragua and Sudan

urgently support designed by the United Nations Secretary-General Antonio Guterres on March 2020 for a global ceasefire. We are also encouraged by the growing support from UN Member and Observer States, non-State actors, civil society networks and religious, religious leaders and United Nations Members of Peace and Advancement for Sustainable Development Goals

recognize that the spread of the COVID-19 pandemic has profoundly impacted all three pillars of the United Nations - peace and security, development, and human rights

express our deep concern for the continuation of hostilities in various parts of the world, particularly in the Middle East, and the devastating impact on the most vulnerable - especially on women and children. We must channel all our efforts to save lives, secure economic and social stability, and protect the people.

strongly believe that it is crucial for diplomatic actions and for all UN Member and Observers to be devoted to collective effort in the current fight against the pandemic. We also have the opportunity of global unity and solidarity in addressing this challenge.

we encourage that implementation, rule of law, dialogue and diplomacy for peace are essential in preventing and resolving conflicts towards the peaceful settlement of disputes. We encourage the rapid resolution of disputes in order to avoid escalation. The peaceful settlement of disputes is also encouraged.

we consider that a peaceful resolution is indispensable to facilitate humanitarian access in armed conflict and local autonomy. We believe that efforts to achieve human suffering and the resolution of disputes should be based on building action to address the pandemic.

we encourage the 75th anniversary of the signing of the UN Charter, we will do all within us to ensure to respond to the Secretary-General's appeal.

we are united in our shared humanity and in giving peace a chance.

In marking its 75th anniversary, the United Nations has launched a global campaign on solidarity and we are kindly request you take the time to fill out this very short survey (two minutes in length) <https://un75.online/?lang=eng>

Please keep in mind to fill out "State of Palestine" as the country location to ensure all our answers are grouped together globally. It is very important for the State of Palestine to be part of this global dialogue that will decide what the UN will deem important to work on in the future.

Also, please follow the global dialogue on Twitter via <https://twitter.com/JoinUN75>

Please share this survey widely. It is incredibly important that we are able to get as many Palestinians to fill out the survey in hopes that the State of Palestine will continue to be a pressing issue in the work of the UN.

بمناسبة الذكرى السنوية الخامسة والسبعين ، أطلقت الأمم المتحدة حملة عالمية للضامن ونطلب منكم تعبئة هذا الاستبيان القصير جداً (دقيقتان) <https://un75.online/?lang=eng>

يرجى تعبئة "دولة فلسطين" كموقع للبلد لضمان تجميع جميع إجاباتنا على مستوى العالم، من المهم جداً أن تكون دولة فلسطين جزءاً من هذا الحوار العالمي الذي سيقدر ما ستراه الأمم المتحدة مهماً للعمل عليه في المستقبل.

يرجى متابعة الحوار العالمي على تويتر عبر الرابط <https://twitter.com/JoinUN75>

يرجى مشاركة الاستبيان مع الجميع! من المهم جداً أن نجمع أكبر عدد ممكن من الفلسطينيين لتعبئة الاستبيان!

Nobody nor state is above the law, nobody or state has the right to uproot anyone, annex lands not theirs, kill other human beings irrespective of situation other than one under exception before the law, uproot the livelihood of others! Impunity must be dealt with fair and square, not even being a party state or not should be ground for impunity!

Permanent Observer Mission of the State of Palestine to the United Nations ...

June 4 ·

"As we somberly commemorate the passage of 53 years since the onset of Israel's occupation of Palestinian and Arab territories in 1967, I must write once again to draw the international community's attention to the ongoing protection crisis and deterioration of conditions as Israel, the occupying Power, continues its depraved dehumanization of the Palestinian people and colonization of Palestinian land..."

Permanent Observer Mission of the State of Palestine to the United Nations

May 27 · 🌐

"Mr. President,

I must address the situation of the Palestinian people, which OCHA characterizes "as a protracted protection crisis driven by lack of respect for international law, and a lack of accountability for violations", and let me do so by stating some hard truths.

1) There is no right to security of the occupying Power at the expense of the security and protection of the occupied people, or at the expense of a people's right to self-determination. There is no right to security that justifies permanent occupation or the illegal acquisition of land by force and its colonization. There is no right to security that justifies a blockade imposed on two million people for 13 years and the oppression of an entire nation. International law draws a clear line between legal action and war crimes and crimes against humanity. Allowing any country to blur this line places civilians in harm's way and undermines peace and security..."

(19 May 2020): DRAFT DECLARATION
The Organization of Islamic Cooperation (OIC) Group Reaffirms

DRAFT DECLARATION
OIC Group Reaffirms Opposition to Illegal Israeli
Annexation Plans
in the Occupied Palestinian Territory, including East
Jerusalem

1. The Organization of Islamic Cooperation (OIC) Group at the United Nations in New York convened at the Arab Summit level on 19 May 2020 under the Chair of the United Arab Emirates to address, *inter alia*, the grave situation in the Occupied Palestinian Territory, including East Jerusalem, as a result of the illegal policies and measures of Israel, the occupying Power, in flagrant violation of international law, the purposes and principles of the Charter of the United Nations—including the inadmissibility of the acquisition of territory by force—and the relevant United Nations resolutions, including Security Council resolution 2334 (2016).

2. The OIC Group reaffirmed OIC resolutions on Palestine and Al-Quds Al-Sharif adopted by successive regular and extraordinary Islamic Summits and Ministerial Meetings. It also reaffirmed the centrality of the Question of Palestine and Al-Quds Al-Sharif to the Muslim Ummah, and its principled and unwavering support and solidarity with the Palestinian people and leadership. The OIC Group called on the international community to shoulder their responsibilities and take urgent action.

3. The OIC Group denounced all violations of international law perpetrated by Israel in the Palestinian land and against the Palestinian people, including grave breaches of the Fourth Geneva Convention, and called for those violations to be immediately and completely ceased. The OIC Group deplored the continued occupation and perpetration of violations by the occupying Power in contravention of international law and in contempt of repeated demands for cessation by the international community, including the UN General Assembly and the UN Security Council.

4. The OIC Group further deplored that, as countries face immense additional challenges caused by the COVID-19 pandemic and that have prompted the UN Secretary-General to call for a global ceasefire, Israel exploits this global crisis to further advance its illegal colonization and to deepen the oppression of the Palestinian people in violation of their inalienable human rights, including to self-determination and to return.

5. The OIC Group strongly condemned and unequivocally rejected Israel's plans concerning the annexation of Palestinian territory in the West Bank and called for the immediate and complete halt to all such illegal actions, including the construction of Palestinian land, the construction of settlements and the wall, the demolition of Palestinian homes and properties, and the forced displacement of Palestinian civilians. The OIC Group affirmed that the implementation of these illegal unilateral plans will undermine the efforts made by the international community towards achieving a two-State solution or the pre-1967 borders and the prospects for realizing a just, lasting, and comprehensive peace, and they will have grave consequences for the stability and security of the region and beyond.

6. The OIC Group reiterated its demands that Israel, as the occupying Power, fully respect all of its obligations under international law, including international humanitarian law and international human rights law, the UN Charter, and the relevant General Assembly and Security Council resolutions. In this regard, the OIC Group stressed the urgent need for the international community to hold Israel accountable for its actions to ensure that Israel respects its obligations.

7. The OIC Group recalled, in this regard, Security Council resolutions 2334 (2016) and 438 (1980), the resolutions of the General Assembly in its regular and emergency special sessions regarding the Question of Palestine, the relevant

8. The OIC Group called on the international community to engage in serious efforts to halt Israel's plans concerning the illegal annexation and to salvage the prospects for realizing the rights of the Palestinian people, including to self-determination and independence; the two-State solution at the pre-1967 borders; and a just and lasting peace in accordance with the longstanding international consensus and based on international law, the relevant UN resolutions, the Muslim principles, and the Arab Peace Initiative. The OIC Group specifically asked the Security Council to uphold its duties under the UN Charter and to address Israel's claim of annexation, which undermines opportunities for peace, and contradicts all efforts made by the international community to reach a lasting political solution in accordance with relevant international resolutions.

9. The OIC Group reaffirmed that peace and security in the Middle East region and a just, lasting, and comprehensive solution can only be achieved by bringing an end to the illegal Israeli occupation of the State of Palestine, including Al-Quds Al-Sharif, and of the other Arab territories occupied since June 1967. The OIC Group called for all efforts necessary to bring an end to this illegal occupation and to assist the Palestinian people in achieving their inalienable rights, including the right to exercise self-determination and to live, security, dignity and peace in a sovereign and independent State of Palestine, with Al-Quds Al-Sharif as its capital, and a
